 11120 Glacier Highway
 Juneau, Alaska 99801

Juneau School District
 Juneau Douglas High School
 Construction Program
 10014 Crazy Horse Drive
 Juneau, Alaska 99801

Purpose: In addition to the general Tech Prep Agreement between the University of Alaska Southeast and Juneau School District, we have agreed to the following process and criteria with respect to the programs of *Construction Technology*.

1. The Juneau School District program will follow a curriculum coordinated with the administration and faculty of the University of Alaska Southeast pertaining to the following courses:

| <u>UAS</u> | | <u>JSD</u> |
|----------------------------|-----------|--------------------|
| CT S120 Basic Construction | 3 credits | Basic Construction |

2. Juneau Douglas High School will teach for the attached outcomes.
3. Students must have an overall 2.0 GPA to register for university credit.
4. Those electing to register for UAS credit must declare so at the beginning of the semester.
5. A safety contract, completed and signed by the student and parent will remain on file with the school district for students enrolled in Basic Construction
6. It is recommended that coursework be completed at a level of 3.0 GPA.
7. There is a recommended minimum of five hours per week study time outside of class in order to complete written assignments.
8. Attendance is a major component of grading. There is a limit of eight unexcused absences per semester for a passing grade.
9. There will be a skill test at the end of each phase of construction.
10. A written safety test must be passed with 100% and a demonstration of safe use must be observed by the instructor before power tools are operated.
11. UAS program chairs shall review and approve all course syllabi and related curriculum documents to ensure they replicate exactly what is taught in the equivalent UAS courses on campus. This includes standardized course syllabi, course objectives, textbooks, tools, equipment, and methods for evaluation of student performance.
12. In order to receive concurrent credit, the student will register for the Tech Prep class during the semester in which the competencies will be completed. The UAS grade posted will be the grade earned in that semester.
13. Any change in instructor requires suspension of this addendum.
