11120 Glacier Highway
Juneau, Alaska 99801

Ketchikan-Gateway Borough School District
Ketchikan High School
Health Sciences Program
333 Schoenbar Road
Ketchikan, AK 99901

Purpose: In addition to the general Tech Prep Agreement between the University of Alaska – Southeast and Ketchikan-Gateway Borough School District, we have agreed to the following process and criteria with respect to the program of Associate of Applied Science in Health Sciences.

1. The Ketchikan-Gateway Borough School District Health Sciences program will follow a curriculum coordinated with the administration and faculty of the University of Alaska – Southeast pertaining to the following courses:

<table>
<thead>
<tr>
<th>UAS</th>
<th>KGBSD</th>
</tr>
</thead>
<tbody>
<tr>
<td>HS S135: “Medical Terminology”</td>
<td>3 Credits Medical Terminology</td>
</tr>
<tr>
<td>HS S102: “First Aid and CPR”</td>
<td>1 Credit First Aid/CPR</td>
</tr>
<tr>
<td>HS S101: “Introduction to Health Sciences”</td>
<td>3 Credits Introduction to Health Sciences</td>
</tr>
</tbody>
</table>

2. Ketchikan-Gateway Borough School District will teach for the attached outcomes.

3. Students must have successfully completed a full year of Biology with a 2.0 course GPA prior to enrolling in the Medical Terminology and First Aid/CPR courses.

4. Students must have achieved junior or senior status and have an overall high school 3.0 GPA in order to enroll in the Medical Terminology and First Aid/CPR courses.

5. Students must have a 2.0 GPA in HS 135: “Medical Terminology” and HS 102: “First Aid/CPR” in order to register for university credit in the HS 101: “Introduction to Health Sciences” course.

6. UAS Program chairs may review and approve all course syllabi and related curriculum documents to ensure that they replicate exactly what is taught in the equivalent UAS courses on campus. This includes standardized course syllabi, course objectives, textbooks, tools, equipment, and methods for evaluation of student performance.

7. The school district retains the right and responsibility to select its own faculty, but the minimum qualification requirements to teach a specific Tech Prep course being offered at the high school also should match that of the minimum requirements established by UAS for that same course if being taught by their faculty.

8. In order to receive concurrent credit, the student will register for the Tech Prep class during the semester in which the competencies will be completed. The UAS grade posted will be the grade earned in that semester.

Initials: UAS Provost

Initials: KGBSD Superintendent
