

Simple Software for Better Interview Skills

SOLUTIONS FOR UNIVERSITIES, COLLEGES,  
AND HIGH SCHOOLS

**Land your dream job**

# Helping your students land more jobs

by helping your school provide efficient, effective and accessible training

Big Interview offers an on-demand and simple-to-use job interview training system that combines both expert-developed lessons and the ability to actually practice — all from a user's home computer.

Big Interview empowers students to greatly improve their chances of landing a job — and gives them a fundamental skill they'll use for the rest of their careers.

Big Interview gives users a powerful suite of tools to get them ready.... fast. Our complete lesson curriculum (developed by top interview expert Pamela Skillings) teaches them how to get inside the head of any interviewer and prove that they're the ideal candidate.

## How it works

The interactive Interview Practice module gives them the hands-on preparation they need to comfortably and confidently deliver stellar answers. Additional tools like the Answer Builder, Question Library, and Interview Roulette help users drill down on specific skills and get even more guided instruction.

# Fully customizable for students and faculty alike

Equally ready for last-minute individual prep, or curriculum-integrated classroom use

Big Interview gives schools the perfect set of customization tools for their goals and situations.

Whether for self-starter students looking for individualized interview prep, faculty members looking to easily assign and grade mock interviews, or career services departments who need to serve growing student bodies with limited resources, Big Interview is ready to serve your school's needs.

# Virtual practice interviews

## The most important step of interview prep

Our practice interviews are industry specific, difficulty adjusted, and always available.

Students get a well-rounded view of the type of questions to expect during any interview and can practice answering them all.

Whether you're looking for behavioral/competency-based questions or questions specific to an industry (140+ industries covered), we've got you covered. And our library of industries, job roles, and questions is constantly updated to reflect the latest changes and trends in hiring and workforce demands.

# In-depth learning curriculum

Developed by the top interview trainer in the U.S.

Our comprehensive video and written training materials were developed by top coach Pamela Skillings.

From learning job interview fundamentals in Lesson 1, to learning how to close an interview and ask smart questions in Lesson 10, our full video curriculum leads users through every step of the interview process.

Students using Big Interview to prepare individually have all the training they need readily available and broken down into time-based learning tracks. Faculty and staff can also use the lessons to easily supplement classroom teaching or homework assignments.

The image shows a laptop and a smartphone displaying the Big Interview website interface. The laptop screen shows a video player for "Lesson 1 Best Practices" featuring Pamela Skillings. The smartphone displays a playlist of lessons.

# Who developed Big Interview?

Hi, I'm Pamela Skillings, the creator of BigInterview and a top job interview coach. I have helped thousands of clients — from all industries and at all experience levels — learn to ace their interviews.

While privately coaching clients, I found that there was a need for powerful tools to train students and give them crucial interview skills. The methodology behind Big Interview is backed up by years of academic research on the dynamics of the job interview, and by the success stories we see every day from government agencies, educational institutions, and individual users around the world.
