Entry Level IT Consultants and Interns

CGI is seeking graduating students and interns interested in careers in the Information Technology field. CGI is more than just an IT consulting company; we are a global organization offering a world of opportunities. Become part of a unique culture that gives you the freedom to innovate, to make decisions, to achieve your full potential and to chart your own career!

Our Entry-Level Consultants and Interns are hired into either technical or functional roles within specific account and/or project teams. All candidates typically have a demonstrated interest in technology and business, strong problem-solving abilities, and excellent interpersonal skills, but all majors are welcome!

What you’ll need:

- A bachelor’s degree from a 4-year institution by August 2014 for full-time or August 2015 for intern candidates
- A great attitude and hunger for learning
- Excellent analytical, written, and oral communication skills
- Ability to work within a team environment
- 3.0 GPA (strongly preferred)
- Ability to work in the U.S. for an indefinite period of time

What you’ll do (assignments may include responsibilities in one or more of the following areas):

- **Applications Developer and/or Technical Analyst roles**
  - Create systems design utilizing client requirements
  - Applications development and computer programming
  - Database maintenance and configuration management
  - Software installs, technical testing and reporting

- **Functional and/or Business Analysts**
  - Client requirements gathering and analysis
  - Tracking testing and documentation of defects
  - Onsite client consulting and support
  - Writing program and system user manuals and/or training materials

What you’ll gain:

- Involvement in a team oriented atmosphere
- Involvement in the technical components of a client project
- Exposure to business issues and challenges
- Opportunity to leverage your computer knowledge and analytical skills

Join our team and experience the commitment at CGI!
