

Safety Committee Minutes

December 16, 2015

Members present: Dan Garcia, Keith Gerken, Tom Dienst

Members absent: Katie Bausler, Lori Klein, Ivan Hazelton, Priscilla Schulte, Lisa Hoferkamp

Recent Incident Reports

A member of the public slipped on ice in front of the main Novatney Building entrance.

Campus Events and Risk Management

Since the meeting we generated liability waivers for the following UAS activities: New Student Orientation activities, a dolphin research project in New Zealand and a backcountry skiing trip to Japan.

Emergency Management Planner

Mathew Ziemer will start work at the Juneau campus on February 8, 2016.

Readiness Committee update

Emergency Alert Notification vendor search down to one candidate. May be issues with Smart Phone interface. Target date for having the new system online is June/July 2016.

UAF conducted a Violent Intruder Exercise that involved the occupants of the Butrovich Building on the UAF campus. Some of the lessons learned include not to rely on technology and to provide a clear line of authority during the exercise so that someone is in charge. Providing players with just an exercise timeline was not enough to coordinate all of the players.

Red Cross Shelter Exercise

UAS, the Red Cross, Public Health and other partners will be holding a shelter management exercise in the Rec Center on January 23, 2016.

UAS Emergency Alert Notification Test

UAS will be conducting an Alert Notification test on January 8, 2015 by sending a voice message over our UAS telephones.
