The construction between the Hendrickson and the Soboleff is almost done. The Hendrickson Building now has ADA accessible bathrooms. Anderson will start construction next spring. There are no plans at this point for a safe means of students getting to Anderson Building. More work needs to be done to keep the pressure on with the DOT. The city has been working very well with UAS. DOT has set aside money for the Auke Bay area including sidewalks. There needs to be a voice from the students at the next meeting would be nice. It will continue to be student run; however the cost of the program will not be out of Student Governments budget. The city is looking into a program that would allow for a large dumpster to be placed by the trash dumpsters at housing. The dumpster would be sent to Seattle for separating, so all types of recyclables could be thrown into the one bin. Enrollment day had 41 students sign up for classes. The days total registration was 91. Enrollment is up about 10% from last year. Vice President Purdy will be speaking to the Orientation group, since President Ashley is not available.
