In 2015, Assistant Professor of Alaska Native Languages X'unei - Lance A. Twitchell secured grant funds from the Rasmuson Foundation to help create a new centerpiece for Egan Library—the Cyril George Alaska Native Knowledge Center. This space will honor Kaalkáawu Cyril George, an esteemed Tlingit elder from the Deisheetaan Clan of Angoon, who passed away in 2014. As X'unei wrote in the grant application, this project will “continue to reshape our campus in ways that focuses energy on the visibility and centrality of indigenous voices.”

This project is also supported by a generous gift from Kathy Ruddy, a close friend of Cyril George. After consultation with Library management, Alaska Native faculty and staff leaders, and UAS Facilities Planning staff, a space on the Main Level of the Library was selected as the future home of the Cyril George collection. This space is literally right at the heart of the library, extending from behind the Reference Desk to the Reading Alcove and also repurposing a portion of the library currently used for microform collections.
COLLECTION

Gift and grant funds will be used to purchase new shelving for the Cyril George Alaska Native Knowledge Center. The collection itself will initially be drawn from the Egan Library’s current collection of books and media on Alaska Native cultures, as well as on language revitalization and indigenous peoples worldwide. There will also be areas for study. In the future, there is interest in adding additional media stations and new furnishings, as well as continuing to grow the collection. Future funding will also be sought to enhance the area with artwork, potentially including the creation of four Tlingit houseposts around the structural columns in the space.

The Library is aiming to have the Cyril George Alaska Native Knowledge Center in place during Summer 2016.

Other indigenous knowledge collections, such the Waitakere Library in New Zealand, are inspirations for the Cyril George collection project. The collection will incorporate Tlingit art motifs and bilingual signage. (Photo by Matt Jenkinson from Google Maps)
There’s never been a better time to read the American Book Award winning memoir, Blonde Indian by Professor Ernestine Hayes. Selected as this year’s One Campus, One Book for UAS and as the statewide Alaska Reads book for February, everybody’s reading it! Follow these links to find the book and to learn more:
