

# Egan Library

## Student Course Rating Comments Fall 2016

---

### Library Instruction and User Education

ED638-JD1	Jonah is awesome.
EDSE610-JD2	I did take the mini-course on the e-library. I just haven't needed to use it, yet.
ENGL111-J03	Jennifer Ward came into our class and helped with UAS library resources for a whole class period.
ENGL111-J04	We had someone come to class to give us tips for doing research which was very helpful. Waiting to print things before class was stressful if I'm running late and there is a line for the 1 printer kiosk .
PSY101-J01	We had an instructor come in who showed us how to use the specific resources
SOC410-KD1	We had a great learning session with a librarian which is very helpful for learning how to search for things.
SSCI300-KD1	I definitely used a lot of databases and such to help me with this course! The librarians were a big help in refining my search and making it easier for me to get everything I needed.
SSCI300-KD1	The library was great in this course. They helped with the rigorous sources that were asked for and helping to find sources that were not immediately seen as relevant to the subject but turned out to be really important in the paper. Experience matters!

### Library Facility and Services, Learning Center, Testing, and Writing Center

ACCT454-JD1	I didn't use any library resources, but often studied at the UAS Juneau library to escape a noisy home environment. This was extremely helpful as I have a really difficult time concentrating at home!
ANTH314-J01	I used the computers everyday! It was the only place I could get homework done. I love the library.
ANTH375-J01	I use the computers in the library all the time! It's the one place I can get work done.
BIOL111-TD2	The testing center had the highest importance, the online library was great for relevant articles.
BIOL240-TD4	pleasantly surprised; the library desk was very helpful (knowledgeable)
CHEM103-TD1	It is the best. I use the library regularly. The tutors there were extremely helpful.
CIS105-K01	I didn't really use the Library as a resource for this class but any other time I was there I always had a pleasant experience while being there.
ED593-J07	I mean, they're great. I've been there and they're very useful. I just didn't use them for this course...
ED620-JD2	Couple of weekends I wished it was open later
ED626-JD1	This is actually the first class for which I've used the library and it was extremely helpful.
ENGL092-J01	The writing center I got a lot of good help from Taylor and Allison in the writing center and a lot of help in the learning center mostly from auggie

ENGL211-J01	I will need to continue to make appointments in the writing center.
ENGL223-J01	The OneStop online search on uas.alaska.edu is very helpful! I used it for almost all the essays for the course.
ENGL461-J01	The printing process has become too much of a hassle to actually be useful.
ENVS213-J01	I use the library everyday for homework on the computers.
GEOG410-J01	The computers in the library were literally always broken, three of us from class would do our assignments together, and we would try to do them in the library but we could never sit next to each other because the computers were always down. Once we switched from the library computers to the learning center computers it made a huge difference, the learning center is GREAT. Their computers were never down and we could all sit by each other to get the assignments done.
HIST105-J01	I did not have need of the resources at this time and even though I know the writing center was open and available to help with formatting of my papers I didn't feel like I needed to utilize them for this class.
HIST105-J01	I didn't use any library resources except for a place to study.
MATH105-J02	Library wasn't very helpful (not needed), but the learning center was very helpful!
MATH151-J01	I love the learning center!
MATH151-J01	the learning center was very helpful
MATH151-J02	The learning center is in the Egan library and that was a very useful resource for this course.
MATH152-J01	Not sure where the Learning Center fits into Resources and Services, but I'd like to extend a big shout-out to the Math tutors in TLC. I'm so impressed by the enthusiasm to teach that the tutors exhibit. TLC is a major credit to my success in this class and I am so sincerely grateful to each and every tutor that put up with my silly questions!
MATH253-J01	I love studying in the library, but I did not use any of the library resources.
ODS116-J01	Good service, why are the guest computer's so much faster than the student computers? Why is the student time limit only and hour?
PHIL371-J01	I use the library computers and atmosphere for writing and reading everyday. I love it.
PSY313-J01	I broke my computer before the semester started so I have been having to check out the library laptops and they kind of suck. The internet sucks and they often freeze on me so it is difficult to get my school work done on them because it take so long to do anything.
SOC101-KD1	Thank goodness for laptop loans.
SOC302-KD1	I would have been up a creek without the library! The online services were so essential and the in person help was amazing! I love the library in all its forms!
SOC345-KD1	The library is amazing and fantastic! Without their online and personal help I could not have completed this course.
SOC375-J01	The new printing system in the library, made printing more difficult.
SOC377-J01	The printing system this year is less than ideal.
STAT273-J01	Having ssps available to me through the library computers was very nice.
STAT273-J01	I will continue to use the learning center to seek help on assignments.
STAT273-J01	this whole thing about charging for printing is bullshit!
UNIV101-KD1	Library was very resourceful and helpful. I enjoyed my experience every time I've been there.

## Library Online Access

ANTH202-KD1	Having an option for chat available is great, it saved time and made it possible for the library to send links to very useful resources that I hadn't previously known were available.
ANTH205-KD1	There is a bit of a learning curve when first using the library resources, particularly the search function and I wish there were more filter features.
ANTH314-J01	I used ebscohost for both of the papers I wrote for this class, Dan also gave our class a tour of the library so we knew where to go for extra articles.
ANTH393-KD1	Off campus access is critical to my success as a student.
ART160-TD1	I never needed to seek the library services for this course though I do often utilize the library searchable database resources for this and other courses.
ART205-J01	Egan library gave me access online to art model books which I used for assigned class homework studies. The librarian even made a call to the provider so that I could keep a photo up in screen longer without losing the connection which was really helpful!
BA151-JD1	I used ebscohost and it was helpful.
BA251-JD1	It is great to have so many articles accessible online for students that are distance like myself.
BA343-JD1	It is so wonderful to have so many sources available online for when you are in distance courses. We still access the resources needed and it is wonderful you can have books shipped to libraries closer to you. GREAT LIBRARY RESOURCES!!!!!!!!!!
BIOL112-TD1	Access to research articles would make discussions more rigorous.
BIOL215-J01	the library is awesome and deserves more money for access to more science based databases like WEB OF SCIENCE. however, the printer at the library is a little annoying. not because I have to pay, but because sometimes it just doesn't want to work.
BIOL393-J01	The interlibrary loan site to request articles doesn't work on chrome which is inconvenient. I shouldn't have to download a new browser just to request articles.
ED230-JD2	I tried several times in the beginning through the middle of our class semester to use the Egan Library resources. Each time I tried to use it, I just ended up frustrated. It is just too complicated and time consuming to get down to the article that you need. Especially when all you have to do in a Google search is type words that reflect what you are looking for instead of all the steps you have to take to get to an article in the Egan Library. As time went on, I just stopped wasting my time and used other resources. TIME IS VALUABLE!
ED638-JD1	The online resources were great. We are online so we only needed the online resources.
ENGL111-T01	I did not find information I was looking for, and got confused using it
ENGL111-T01	It's nice to have access to the online journal resources
ENGL111-TD1	The chat option is useful only sometimes. My last attempt I was asked to chat later or hold while they assisted another student. I responded that I would hold and after 15 minutes I sent a message to politely let them know I was still holding and would continue to do so. Whoever was responsible for the chat assistance that day simply turned off chat option as if they went to lunch.
ENGL111-TD2	I am not currently in Alaska where I could have used the Library more to my liking, but the library staff helped me find articles online and sent me an email regarding this. So that was helpful.
ENGL211-J03	Search database is a great resource.
ENGL419-KD1	This is the first time I have checked out books through interlibrary loan, my books arrived in a timely manner and I am not sure why I haven't used this resource before...
ENVS102-J02	The interlibrary loan site to request articles did not work on chrome which was inconvenient. I should not have to download a new browser to request articles.
GEOG101-KD1	I did not utilize the library services for this course, though I use the searchable database resources for this course and others on a regular basis.

GEOG101-KD1	These library sources have been integral to my success in nearly every single courses that I have enrolled in while at UAS. They are priceless tools that I hope every student utilizes.
GEOG102-J02	Ebscohost was awesome, I used it for my term paper.
GEOL105-KD1	I used the UAS library resources quite a lot to search for journal articles on relating topics.
HS206-J01	I only used online resources to find articles for research papers.
PADM601-JD1	Learning how to navigate and research the online UAS database is a great resource I plan to use in the future.
PADM604-JD2	Article databases were easy to use. I used the librarian services at UAA and UAF to complement research and was grateful to have access to those resources as well.
PADM625-JD2	I very much use the library resources available for research with my papers and I appreciate the ease of use and the ease to which most articles or books or easily available, very rarely an article was not available.
PADM625-JD2	The UAS Library to use for resources is difficult to navigate, so I rarely use it. There should be some type of video on how to use this when looking up scholarly journals to use for a paper for Public Administration.
PADM671-JD3	the library online is most helpful in rural Alaska
PS102-J01	I used Ebscohost to write a research paper in this class.
PSY245-KD1	Initially it was a little confusing or challenging to access the information I was looking for, however, once I felt situated on the site I was able to use it with no further issues.
PSY302-J01	Egan Library's resources were extremely helpful! I used Ebscohost and ScienceDirect throughout the entire semester. Super helpful!!
PSY302-KD1	Jstor is a frustrating system to use, the search engine does not allow for very specific searching, and many of the "relevant" articles are quite outdated.
PSY313-J01	The only thing is the interlibrary loan page to request articles does not work on chrome which was inconvenient.
SOC302-J01	I used Psyche Info to obtain research for my final paper, but only ever went to the library to take tests and study.
STAT273-KD1	I really enjoy the tutor.com resource for math classes. Its very helpful.

## Collections

BIOL111-TD4	They didn't have the lab manual in Juneau. I didn't get a lab manual so this semester has been challenging.
BIOL240-TD3	There was no effort to provide access to journals. This is foundational to creating rigorous discussions in a science course.
CHEM105-J01	Past exam examples were amazing!
DESL110-K01	I actually visited the library and read up on diesel engines before the class began. I found some wonderful books that taught me more than I needed to know in the actual class.
ED230-JD1	JSTOR was extremely beneficial to this course.
ED302-JD1	I use the Egan Library often for all of my classes. The education section and children's section were very helpful.
ED320A-JD1	I found the textbook at the University library. It's an older version, but a new copy was \$175 and I was not going to spend that kind of money on a month long class. Thank you for keeping copies of the textbooks available (even if they are 20 years old. A newer version of the book would be nice too).
EDET679-JD1	The more journal resources we have, the better. In an educational technology program, if we are limited to articles due to accessing immediately for a blog research need for that week, requesting an article is not timely. We need up to date articles that are readily available.
ENGL092-TD1	Ebscohost gave relevant and in depth articles. It was useful and helpful for my assignments

ENGL111-J02	One search is the shit!
ENGL261-TD1	There is a vast amount of resources available to the student through the Library, it was very helpful!
ENGL311-JD1	I always get my books from the library when they are available, it really saves a lot of money! Thank you! :)
ENVS213-J01	For all of my classes in the natural sciences I found the library lacked access to important databases which contained journals in fields such as hydrology and geology in particular. The Wiley library database would be a very useful resource.
HS206-J01	So happy that they had the textbook on reserve so that I could study on campus if I forgot my book at home.
MATH055-J03	The library let us check out the course book for free which was awesome
MATH055-J03	They gave everyone in the course a textbook for the semester!
MATH055-J03	Used the learning centre for tests and got my book from the library which was nice
MATH105-J01	My algebra book was delayed in being shipped to me, I went to the library and was able to get a copy so that I could photocopy the first chapter for my class. I also used the tutoring center to do homework and ask questions when I needed help.
MATH151-J01	Textbook was always available!
PADM604-JD1	I used Ebscohost quiet frequently throughout the semester
PADM625-JD1	Ebscohost and JSTOR were helpful resources for this class.
PADM625-JD2	I love EBSCOhost, I just access it through a different proxy
PS393-J01	The library didn't seem to have very many scholarly rescouces relating to political science
PS393-JD1	Papers were available via EbscoHost that we required for our project. I was also able to look up Newspaper articles not otherwise accessible.
PSY101-J01	We used PsychINFO a lot

### General Positive Feedback

ANTH193P-K01	the library has great recourses in it to use.. I was only in it for researching my paper.
ANTH200-KD1	Beatrice Franklin was especially helpful in guiding me through the processes for getting a library card and requesting materials.
ANTH200-KD1	the librarians where helpful at helping me find the information that was needed, they even helped me refocus my paper so that it would be more clear & suited with the right resources that was needed.
ANTH393-KD1	ILL is the best!!
ART261-J01	Very supportive!
ART393-J01	The librarians are so nice and helpful.
BA151-J01	If it was easily findable yes.
BIOL441-J01	librarian were super helpful in finding articles i couldt locate.
CIS105-K01	I was able to get help for and help others with a couple things in Microsoft Office through the librarians.
COMM111-K01	I used the library a lot for my informative and persuasion speech. The librarians are really helpful, and I love that we have access to so many sources from our databases.

COMM111-K01	The Librarians were knowledgeable, very helpful in helping find material and teaching us how to look up information for our speeches.
ED626-JD1	Very helpful!
ED638-JD1	They are excellent!
EDSE610-JD2	Unable to get into the Open House. Library were very helpful in showing me how to access journal databases.
ENGL111-J02	Very helpful.
ENGL111-T01	The Egan lrary was super helpful for me, and the librarians that were able to chat at ALL times was such an advantage!
ENGL111-TD1	The library was an incredible resource. If Dr. Trafton hadn't included this in the course I fear I wouldn't have known about it.
ENGL111-TD2	The librarian and her helper had a lot of knowledge about resources and helped me with laptop information and other things that I needed.
ENGL111-TD2	This helps but sometimes I needed some guide or information on the weekend and I did not find it.
ENGL193P-T01	It was all there to help us, but I didn't use it for my papers.
ENGL212-KD1	The UAS Ketchikan Librarians are so helpful and knowledgeable!
ENGL261-J01	Great!
ENGL311-JD1	Keep up the awesome work, Egan library! j
ENGL311-JD1	The librarians were always so attentive and gave me some awesome advice!
ENGL362-J01	Also, the Learning Center and the Writing Center staff are great!
HS105-J01	Great people and place.
HUM210-KD1	The librarians were extremely helpful at helping look for some specific information.
MATH055-J03	Help is there when you need it.
PADM625-JD2	Great resources, thank you.
PE103-J04	They provide good resource for us students throughout the course of the semester.
PHIL371-J01	Always a very strong resource.
PSY101-KD2	They were there to help you, but I had a hard time using the site for looking up articles I needed for the class.
PSY302-KD1	If it wasn't for the library resource and service, I wouldn't be able to learn what i did.
SOC101-KD1	I didn't really need them for this course, though in general I find them very helpful! I'm so happy we have access to these resources.
SOC101-KD1	research material is important
SOC410-KD1	The library and the librarians are the most used resource! The people are always interested, cheerful and helpful and the online article collections are amazing and saved so many university students grade lives.
SSCI200-KD1	I definitely used the library and the databases for this class a lot. Many papers were written, so all the help I got was much appreciated.
SSCI200-KD1	Important to get research material
