

Student Ratings Comments – Library Fall 2017

Facility / Learning & Testing Center / Writing Center /General

ACCT201-J01	Keep up it up! You guys are doing a marvelous job!
ACCT201-J01	I did not use the library for this class but did for my other classes and found the library to be a wonderful place to study and receive help when needed.
ACCT201-JD1	Services were available to me and helpful.
ACCT201-JD1	I didn't access these services during the course of this class. But I have had to utilize services in the past and will need to for future courses. The library services are extremely valuable.
ACCT222-JD1	I wish the library would be open later on weekends.
ANTH202-KD1	the library is such a great resource! I just wish it was open later so I could study there more.
ANTH205-J01	The only thing we used the Library for was the Bear which was cool I learned a lot about Osteology and the differences between Zoology from that skeleton. Aside from the skeleton I used the Library for out of class study and printing of my assignments. It is amazing just how far \$5 can stretch.
ANTH324-J01	I study best in the library!
ART201-J01	Egan Library is the VERY BEST library...
BA263-JD1	The library helped me so much, I couldn't have passed this class with out it. It would be nice if the Library had tablets to rent as this course required me to make several videos...
BA351-JD1	The UAS Library has severed as an incredible resource. Very grateful for such a high quality facility in which to study.
BIOL103-TD1	Hours were highly inconvenient at the Learning Center for a student who also has to work full time.
BIOL111-J01	I utilized the Learning Center for studying, and I sought out some additional resources through interlibrary loan.
BIOL111-J01	I didn't use the library resources for this course, but I spent a lot of time studying in the library. It's a nice place to sit and read without getting distracted.
BIOL111-TD1	The testing center in Juneau had decent hours, but I would recommend during the weeks of midterms nd finals to provide additional hours for testing.
BIOL215-J01	The staff are really friendly and there are pencils, paper, staplers, scissors, glue sticks, books, and advice whenever you need. It would be nice if the library could be open later.
CHEM103-K01	The library is always available and very accessible.
CHEM105-J02	Tutor help was very useful

CIS235-JD1	The library was helpful when I needed to check out a laptop to continue working when the campus was closed.
COMM237-KD1	Staff at the library were most helpful with any questions I had.
DESL131-J01	No one there or in the learning center was able to help me with my homework.
ED593-J10	Adequate, friendly staff
ED638-JD1	I didn't need a lot of library access this semester but utilized the library services a lot last summer and they were great!
EDSE482-JD1	I didn't need to use any library services or resources for this class. I did however utilize the library itself multiple times per week during the semester.
EDSE612-JD1	We didn't use the library resources much for this particular class, but I did use it for my research project.
ENGL362-TD1	library was helpful
ENGL461-J01	Our Renku writing team used a library room to work on the group writing - very helpful
GEOG350-J01	I love the library!
GEOL105-J01	Your library team is so helpful! I learned to use the scanner, find primary resources in Scientific journals, and had help finding a journal article that I would have otherwise needed to pay in order to view.
HIST131-KD1	Great staff and assistance from other students. Great location, convenient.
MATH055-TD1	Although I did not use it, I knew that tutoring was available if needed. It was a comfort to know I'd always have help.
MATH105-J02	the learning center was very helpful...
MATH105-J02	I never asked for help in the learning center, but I always borrow their textbook when I forget mine at home, but kudos to the tutors in the learning center! They're approachable and they always always have someone they're teaching whenever I come over!
MATH105-J03	The learning center helped me the most.
MATH105-J03	I used the math learning center every day after math class and it helped me a great deal. I never missed a homework assignment.
MATH113-KD1	The library is easily accessible and has a lot of resources to offer to students.
MATH251-J01	The learning center was a vital resource to help me pass this class. Without the help of the tutors I would not have done nearly as well in this course. Additionally having the opportunity to take tests in the testing center instead of in class allowed me to take my time on exams, feel less stressed and do higher quality work.
MATH251-J01	Learning center was very crucial
ODS243-J01	Not really need led except for study rooms

PADM604-JD1	Alison at the writing center is super kind, approachable and helpful.
PADM625-JD2	The UAS writing resources were fantastic! The learning center.
PHYS103-J02	The UAS library is wonderful and the staff is very helpful.
PSY250-KD1	Wait, there is a UAS library?!?! I was unaware of this.
PSY333-KD1	the librarians in Ketchikan rock. They saved my life during this course. I couldn't have survived it without all their wonderful help.
SPAN101-J01	I will continue to use library's study rooms for personal sessions.
STAT273-KD1	Got some tutoring at the learning center for the first time ever, and they were great.
WRWG090-J01	Writing center was extremely helpful and well knowledgable about the course material. Communication between E.Hayes and the tudors was excellent it seemed, as they knew what students were working on before they are able to fire up any computers.
WRWG090-J01	The only resources i use in the library is the Writing Center.
WRWG090-J01	I never used any tools besides the writing center a few times for this course.
WRWG090-J01	I do not have my own computer so having all the computers at the library is very helpful for me especially since it is open later hours then the Writing Center.
WRWG090-J01	Everyone working at the library are very helpful and nice!
WRWG110-J01	Only used Writing center.
WRWG111-J04	We have an excellent library staff.
WRWG111-T01	It was a very helpful too for our essay, and I'm glad that I was able to be exposed to this resource.
WRWG111-T01	I hardly used the library resources
WRWG111-TD1	I have used the Library Resourses a lot, even for personal use.
WRWG212-J01	writing Center is a good place for students.

Library Online Services

ALST300-JD1	I used internet research more than the library this time, although there are plenty of resources at the library that I could have used. This was a distance course
ANS101-KD1	I wish that Ebscohost allowed more quantities of printouts available!
ANS320-J01	It was great to have access to interlibrary loans.

ANTH202-KD1	I was often signed out as a security precaution, just irritating.
ANTH324-J01	multiple librarians helped me on a few occasions.they were very kind and patient with my questions & technology issues. they made suggestions, showed me some research tools, helped me print, find books, and put a hold on a book for me.
ANTH324-J01	For the final project and paper, I relied on the library for books related to my topic, as well as online articles, mostly through JSTOR. Very helpful resources!
ANTH335-KD1	Every time I contacted them, they were very helpful and kind.
BA151-JD1	It was easy to use and easy to navigate
BA166-JD1	The little bit that I have used the library and Onesearch it has helped considerably.
BA263-JD1	It was hard to find out how to use the online services at first. I didn't like the search until someone showed me how to do it right
BA490-JD1	I honestly forgot about the UAS library when doing my research. I will look into it for my final project. I wish I knew how to navigate it better though. Maybe have a training video or small course for the distance education students on UASOnline or Blackboard. I always seem to pull up irrelevant or incomplete articles.
BIOL111-K01	I think its great the library offers these resources and services. For this class, I did not use any of the library resources.
BIOL111-T01	I use this site regularly for all of my courses and find it is so important to my education.
BIOL111-TD1	I didn't master how to use the services...always seemed to go in circles, even when my search terms seemed very concise...not sure what I might have done differently...I ended up using my browser and had decent success acquiring information to apply to assignments.
BIOL111-TD4	I was completely unaware that there is a UAS library and that the resources are available to us. I have never heard of Ebscohost, ScienceDirect, JSTOR, etc. Please make this information known to students on smaller campuses.
ED222-JD1	I used interlibrary loan and JSTOR and found them very useful.
ED380-KD1	I was glad to learn about JSTOR and found it useful for this and other classes.
ED380-KD1	I disliked how many of the articles I tried to search would show up in the library catalog, but then the link would be dead, or you couldn't actually access it.
ED619-JD1	I need to take my laptop to the mac store over the winter break because I cannot access the library article collections. The HelpDesk tried to help me but they are stumped.
ED626-JD1	Egan Library had some major issues when doing my theoretical framework and themes. This made it difficult to get the research articles I needed in a timely manner, but was fixed by the end of the course.
ED644-JD1	I used the library during the semester and it was very helpful.
EDRE674-JD1	The only frustration I had with library resources is when searching Full Text only, I still kept receiving articles that were not full text. I tried modifying and changing elements, but it always seemed to revert back to not always finding Full Text articles. This may have been user error, but it still was frustrating.
EDSE482-JD1	I was able to locate good sources for every topic I searched for on the Egan Elibrary. The only issue I encountered was that ebscohost gave me a lot of error messages when I tried to access multiple articles and it timed out quickly, so I usually had to close it out and restart my browser once during each session.

EDSE482-JD1	I used the library resources once for research, and imagine I will be using it more with future courses.
ENVS375-J01	using the technology and books in the library was very critical to my success.
HIST300-J01	Thank goodness for JSTOR.
PADM604-JD2	Always has the sources I need, at least I think. Hard to tell because its the only database I have access to query.
PADM610-JD2	There is so much web information now that I did not use the UAS library except rarely, although I am thankful it was there for me.
PADM610-JD2	I've used the distance services provided by the library in previous semesters but not so much this semester.
PADM610-JD2	Being a distant student, I would not be able to complete my courses without use of the online Egan library.
PADM625-JD1	The library is an incredible resource, although the remote connection sometimes took several tries to connect. When it works, it works very well.
PADM625-JD1	I did not use any of the library services mentioned. I only used the online OneSearch.
PSY101-J01	This class taught me how to use the library resources such as PsychInfo, which made it possible for me to complete assignments.
SOC201-J01	Used the online database. Very helpful for my research paper
WRTG111-J03	Library services are always useful to me. During this course, I found that I did use the library resources at times and came in handy, especially interlibrary loans.
WRTG111-TD1	The resources were available, but being an online student, I accessed most information online or from my local library. The library chat feature was helpful.
WRTG111-TD2	The library resources were a bit confusing to use.
WRTG111-TD2	The library resouces services were very useful and at times neccessary. Grateful for its availability
WRTG111-TD2	Please look into science direct and make sure people are able to download PDF's. I had a bit of trouble with that site.

Library Instruction, Collections, and Education about Research Sources

AKL205-J01	I used language materials from the special section on the main floor of the library. Most are also online but having a real book to hold and look through is better.
ANS320-J01	I would look for resources for my final assingments.
ANTH348-J01	Please for the love of Anthropology let's get better social science resources. Please.
ANTH205-J01	Research outside of provided/required course materials was not an element of the class
ANTH205-J01	I need to look back at the text books and other readings for any materials I missed.
ART261-TD1	the sources the library offered helped me understand more in detail, by looking at scholarly responses of Art student Majors.

ART261-TD1	the library resources and staff rock.
ART261-TD1	research help
BA151-J01	Keep up with the good work! You guys helped me a lot! Thank you very much!
BIOL103-TD1	I enjoyed the short videos by the librarian that explained where to find required information for this class.
BIOL111-J02	I didn't buy the book because I am cheap and instead checked it out from the library once a week and read from it.
BIOL111-K01	I used books from the library for reference about projects in class.
BIOL427-J01	I couldn't use the library as a resource because they didn't have books of certain species, they just had but about ocean fishes in general and that wasn't helpful at all
CIS170-JD1	If I had any questions not easily answered with course resources I used the internet. No library resources were utilized.
COMM340-J01	Thank goodness for Megan Watson! This course had the most informative and helpful explanation/orientation to library resources of any class I have taken (I have been through multiple orientations, and they all sucked in terms of relevance and practicality)
CT120-J01	I went to check out the textbook. And they told me I can only check it out for a MAX of 3 Hours. How is that even possible when the class itself is 4 hours long. Also the class is located downtown So I was not about to drive from my home on Douglas to the university than back downtown. Than back out to the University after class just to return the book.
DESL102-J01	The UAS library has zero books for ANY of the Diesel program classes which is frustrating.
DESL131-J01	Didn't even seem to have the course book at the library...
ED593-J15	The best resource was tlingitlangauge.com, the instructors website. I did hear of library resources, and don't want to diminish them, but just didn't have time to take advantage of them.
ENGL226-J01	The library and online resources like JSTOR were VERY helpful for my second essay!
ENGL226-J01	Our Librarians Rock!
ENGL226-J01	I appreciated that we got a lesson on how to access the library resources
ENGL261-TD1	The three texts that were used had small print, one was quite excessively small for me. I have vision problems and had to use an electronic document reader and large monitor. An electronic version of the texts would have been very useful. I would have been able to use an iPad rather than set up cameras and computers. It would have allowed me to complete the reading assignments with the same ease as other students who do not suffer from vision issues.
ENGL311-JD1	I utilized the UAS library to research sources for the lit journalism paper assignment for this class.
ENGL363-J01	It may be helpful to have more copies of the books available at the library, that can be borrow for 2-3 days at a time, that way the students who would prefer not to buy a

	new copy, would be able to get by with the copies available at the library. The 5hr (I can't remember the exact hour limit) reading time that the books that are shelved as part of a UAS course, are permitted to be borrowed for felt constraining for the times that I did borrow a book.
ENGL461-J01	thank whoever you see as a divinity, that there is a library and librarians and technicians! It and they are a marvel!
ENGL461-J01	I was happy the library loans dongles so I was able to project from my laptop to the video screen for my final presentation.
GEOL105-J01	Jonas from the Egan library had a presentation about finding creditable sources, which I found to be really helpful when doing the final paper.
HIM135-TD1	the book was very informative, there also was a ebook, I did have a little harder time on that with my PHONE than I hoped BUT it was available so when I was at work I still could read on my break times, or gone from home when out helping/visiting friends and family.
HIST440-KD1	Overall great staff and readily available resources.
HS105-J01	Yes, I borrowed a lot of books from the library. Books are helpful guidelines for me.
HS105-J01	I was very glad to recieve help from the librarian, on how to use the computer, to access material.
LS110-J01	Amazing that the university offers these search engines for the students.
MATH055-J03	I love that I did not have to spend a large amount of money on a textbook that I would only use for one semester. Professor Jill made sure every student could check out the textbook from the library for the whole semester. It helped me tons. Also I think it is great that the Egan Library lets students check out calculators. It is something that I cannot afford as well as textbooks which was a great relief!
MATH055-K01	All the staff is great and always available.
MATH105-J03	used the three hour textbook checkout, and a loaned graphing calculator.
PADM610-JD2	I feel like I could get another tutorial on how to research Ebsco host scholarly journals to strenghen my literature review. Sometimes it is helpful for the professors to remind us how meaningful this can be throughout the PADM coursework.
PSY101-J01	Thanks for teaching about article research!
PSY250-KD1	The library has a lot of books that could relate to the topic that I searched about throughout the semester.
SOC201-J01	The Circulation Desk copy of course textbook was useful
SOC325-KD1	I found that the resources available were limited. I often had to go to other sites to find enough relevant and accessible peer reviewed articles to complete my work.
SPAN201-J01	I was grateful for the textbooks they had on hold
STAT401-J01	Hay-Jahans told us which books we should check out if we wanted to look further into a given topic, and knew whether or not they were in the library.
WELD120-J01	didnt need any resources, Ramsay provided everything that was needed for the course.
WELD120-T81	this class doenst really need the libradry

WRTG111-J02	I used only JSTOR, but the class which was held by one of the research experts (I think it was woman, who works at the library) was very helpful.
WRTG111-J02	Didn't have the books I was looking for to use in my final research essay.
WRTG111-J04	we were told Wikipedia is an unreliable source but during the news week assembly the guy said and Harvard that Wikipedia is the most accurate encyclopedia there is. In order to edit pages on Wikipedia you have to be approved by Wikipedia with credentials. So it doesn't make sense saying one with and the teachers at "more prestigious" schools are saying the opposite.
WRTG111-J03	It was nice to learn how to navigate the site, but not really used by myself this semester for the class.
WRTG111-TD1	Dr. Trafton encouraged the students to utilize the UAS library services.
WRTG111-TD2	After I figure out how to use the online library it was very useful. The online librarian was also very helpful in guiding my research.
WRTG111-TD3	At a glance, the UAS online library can seem slightly confusing. I appreciated that the library staff was available and willing to help assist me in a timely manner.
WRTG211-J02	Megan came in and gave a presentation on library resources that was extremely helpful for research.
