Library Instruction

ACCT201-J01 Instruction and tutoring sessions were extremely helpful and necessary.

ENVS102-J01 There was an instruction session with Jonas Lamb during one lab period that I found really helpful in constructing a topic and doing early research for my term project.

ACCT202-JD1 UAS library resource was useful as that is were the tutoring was conducted.

COMM111-J03 Thanks to Kaia (I think that is how her name is spelled) for coming into class and showing us the ropes! That was also a very helpful thing that Rosemarie did—bringing in guests to help us understand things in a broader sense.

COMM235-KD1 Credible resources were discussed briefly, I think that was great because as this class isn’t about heavy research/writing but on how the group was communication and applying new knowledge and skills into small group communication. I

PADM601-JD1 Faculty did an excellent job providing required reading and research help with an assignment.

PSY101-J01 Kaia showed us how to search databases which was helpful

WRTG111-J02 The presentation Kaia did was helpful in terms of finding articles.

WRTG111-TD2 I appreciated the lessons that Dr. T provided regarding using the UAS library to help us in our research and the writing process.

WRTG211-J01 Mrs. Wall getting someone from the Writing Center and library to help us about the Ebscohost, etc. and to help us on writing our papers better really helped us.

WRTG211-J01 Professor Wall had Kaia come in for one class period and give us a presentation/walkthrough of the library’s online database and helped us research for a class presentation.

WRTG211-J01 We had a representative from the library come and teach us how to use the online databases, which was very helpful for those of us who had never used them before.

WRTG211-J02 Kaia (?) came in to help us with database searching, which was pretty cool. I didn't use library services much except for some journal articles for my final essay

WRTG211-KD1 It really helped to have a librarian join the professor for one of our classes to show us where to look up the literary articles in GALE. The librarian was very helpful and I was able to ask her questions later that she was able to answer for me.
Collections Feedback

AKL103-TD1  Tlingit Oral Literature collection is phenomenal, and the finding tool online is indispensable. It took longer than expected for me to receive my library holds in town (4-6 days?)

AKL305-J01  The library does not do anything to archive the language.

ANTH336-J01  I mean I always want more access to anthropological study.

ANTH336-J01  The library had multiple books that helped me greatly with my research. The librarian was also very helpful when I needed some help with copying pages from certain books so that I could email them to myself. I used online resources (through the Egan Library website) for scholarly articles as well quite often for the class which helped with various assignments.

ANTH375-J01  More access to general Archaeology publications please.

ANTH375-J01  More subscriptions to published articles would be nice. Naturally, budgetary concerns can't be ignored.

ANTH410-J01  I was able to find various books that were really helpful for my final research project (essay and presentation) and got excellent help from the librarian.

BA151-J01  I didn't use it as CNBC had everything I needed.

BIOL103-TD1  Great resources

BIOL310-J01  The library resources and services were helpful in this class as it was required that we read and write a summary on an article from the journals Science or Nature. The library provides a variety of copies of the magazine to choose articles from and computers to type the summaries on quickly.

BIOL311-J01  thanks for the papers lib

ED638-JD1  Research in learning theories

ED626-JD1  Sometimes it is difficult to search for specific themed items.

GEOG101-KD1  The librarians and their staff are very helpful, and libraries have great resources to get facts for researching the country that I reported on.

HIST492-J01  Kanopy was nice to have access too for this course. Also having access to the film viewing room on sunday's was excellent.

HS206-J01  They helped with this course bu providing the books.

MATH151-J01  Library, please buy math textbooks for students so they can rent them out for the semester. Almost $160 for a textbook is way too much for students!

SOC101-J01  Does a good job, although the range of books only fits into what is being taught at the university. for students to get an alternate point of view on the subject and a proper education because the can criticize what they are learning, have different books.
Campus staff was helpful by showing me how to navigate and locate specific sources like journals. Dr. Urquhart and Library staff were helpful in instructing me how to discern between a review and an empirical peer reviewed article.

I actually use the library for all of my assignments and it has been an excellent resource all together.

The library is huge, but there were items I could not find there without going online. Alaska native items, for example, I needed some information on Alaskan Natives and substance abuse and there was not very much on the subject and it was out of date.

Was happy to have these resources. They came in handy while working on projects.

I found books in Egan and other libraries helpful.

Online Research Resources and Tools

The digital libraries are particularly useful

Use of the online library for research using peer reviewed articles.

The online library is a great resource, not only for this course but for all.

I love PsychINFO. I believe I used it a bit for this class...

Couldn't always access articles i was interested in

did some research

Library chat was very useful in finding primary and secondary sources!

I had a hard time using the Egan library with accessing documents that pertained to my subject, It would say I wasn't logged when I clearly was

I searched resources a couple times, but sometimes education topics are difficult to find.

Dr. Hartley provided added resources to the site, which was very convenient.

Ebscohost is amazing and essential to my completion of this course.

Library services have been a great help through all my courses so far.

Resources were helpful for research and supplemental readings.

Dri. Williams took the time to demonstrate how to navigate the library to find appropriate articles for research. The library became an excellent online resource because of her explanation.

Was very happy to have access to resources. Came in handy with projects and papers.
ENVS102-J02 I always have a hard time searching for good studies in my research. The library tools certainly help.

PADM601-JD1 I did not visit the library this semester, but the online services served my purposes.

PADM614-JD1 I wish I had used the Egan Library resources more, but my class was online and I live a good distance from the campus, relatively speaking.

PADM625-JD1 The UAS library could have been useful, I suppose, but I never needed or attempted to access the library resources. I drew from other independent primary and secondary sources due, in part, to clearly outlined reading materials from the instructor, plus a focus on East African literature research.

PS101-KD1 I know for the last paper we will end up using JSTOR a bit, but I haven't used it yet.

PS293-J01 ILL made my final essay possible.

PSY101-KD1 PsychINFO is awesome for finding journal articles. Who knew?!

PSY101-KD1 Love being able to access remotely.

PSY101-KD1 PSYCH-INFO

PSY393-KD1 I liked using the additional articles.

SOC343-KD1 Helpful in learning about how to use JSTOR and other article collections.

SOC343-KD1 I enjoyed how easy it is to access needed article for assignments.

SOC343-KD1 I never had any problem getting online or using any of the library resources.

SSCI200-KD1 Fantastic literature access.

SSCI200-KD1 I did call the library once and they were very helpful. And the databases are a great resource.

SSCI200-KD1 The JSTOR was easy to access and always available when I needed it.

SSCI200-KD1 The resources and services were clearly explained and explored with the instructor.

SSCI200-KD1 They were a great help with questions and helped with how to search for journal articles.

SSCI200-KD1 We used the article database consistently throughout the semester.

WRTG111-K01 I never had to worry about the legitimacy of the sources I found from library databases or collections. It made the processing of researching and completing assignments much easier and reduced stress.

WRTG111-TD1 Sourced articles needed for certain paper. Also we were instructed to reach out and learn about the library chat system. It was good to know that we had that option available to us.

WRTG111-TD1 They were very efficient when I used the chat with the librarian feature.
WRTG111-TD2 I had an extremely difficult time using the Egan Library. Part of this was due to the fact that they were closed when I was able to attempt to use the library. The other part was that when I would search and think I might have found something that would pertain to my subject, I would get an error asking me to log in when I was already logged in.

WRTG111-TD2 I tried navigating the UAS library resources a few times, but found it much easier to just google what I needed. Half of the time it turned up irrelevant results.

WRTG111-TD2 It could be hard to find the information I was looking for, but it worked fine.

WRTG111-TD2 It has useful resources but it is difficult to find relevant information in a timely manner.

WRTG111-TD3 The online library assistant was super helpful for my research paper.

WRTG211-J01 A class was taught on the research tools available online.

WRTG211-J01 Learning how to use the online search engine in class helped.

WRTG212-KD1 I am a distance student, so all of the items that are available electronically are amazing. I used the journal and database searches.

Library as Place, Learning, Testing, and Writing Centers

BA310-JD1 I used the Egan Library in Juneau as well as the online catalogs.

BA490-JD1 UAS Library, the learning center, and testing center are such incredible resources. Thank you!

BIOL111-J02 I didn't really use the resources in our library, except for Kit in the learning center to help us study for exams.

ED416-JD1 I used the library study rooms 2-3 times a week while taking this course.

ED417-JD1 I used the study rooms in the library 2-3 times a week.

ED428-JD1 I used the library study rooms 2-3 times a week.

MATH054-KD1 I use the computers in the library when the learning center is closed to do my online math. I do not have a home computer. More than once, library staff were immensely helpful in getting my math homework up and running when I couldn’t get adobe flash up and running so I could move forward with my work.

MATH055-K01 I was able to check out a calculator from the library for the course of this class. One less expense for me.

MATH055-TD1 The Learning Center is a great resource that is staffed by people who know what they are doing!

MATH105-J03 The learning center was very well used by our class

MATH105-J03 The math center is what i relied on for most of this course.

MATH105-TD1 I am very grateful for the testing center in Juneau. They are very helpful and understanding when I go to set up proctored exams.

MATH151-J01 August and Ben in the Learning Center are a big part of why I am going to pass this class.

MATH151-J01 I didn't have to go to learning center often for the homework, although when I did they were really helpful.

MATH151-J01 The Learning Center was so helpful.

PADM616-JD1 Libraries are essential. If I didn't use the Egan Library, I used others (Loussac, and the UAA Consortium). I also used the Writing center, those guys are AWESOME!

PHYS211-J02 Ben in the learning center was awesome as a tutor.

STAT200-J01 Learning Resource Center was essential to my success & enjoyment of this class. I worked with classmates and could ask tutors for their input, and then if I still had questions it was a good place to run into Hay-Jahans.

STAT200-KD1 Had to go to the testing room.
I only used materials from the library one or two times during the course of the semester.

Initially, I didn't have the textbook but the library did. However, it was in a difficult to locate place and took a long time for the library assistants to find it...

I used the writing center a lot of times, they were all very helpful and willing to sit down and look over any piece of writing I brought in and willing to help explain certain things to me such as comma slices.

I appreciate the college library letting me check out a laptop.

BOOKS GOOD!

The library is helpful, but mainly the writing center was able to provide the assistance and help needed for this course.

I found that the writing center was very helpful.

The library resources are amazing in Ketchikan. The Liberian's are also extremely helpful.

Everything is made readily available and everyone is super helpful.

I struggled with the Technology of the Library, but the Student Success center was always there to help me out.

I use a study room almost weekly. I love Egan library!

I used the Egan Library as well as their online resources.

The writing center ROCKS!!!!!!!!!!

Works great

General feedback and comments

I have used the library in the past - and it was a great resource.

Was able to use the library services to get my book before my purchased copy arrived.

Awesome support

I love the library!

Great support

The library is always kind and helpful.

Great resource.

The library is always useful
I don't know much about the Library resources but I am sure that I can get help there if asked.

I only checked out the textbook on occasion.

Love the library and its resources, but it is not needed for this course.

Good

the past tests and study guides were really helpful for this course.

Grateful for its' availability and use.

Helpful.

I had a computer loaned to me for most of this semester from the campus library. It was wonderful and detrimental to my classes.

very helpful and resourceful

Some of the most helpful recourses for all my classes.

the library was great and i enjoyed the book

library was helpful

Glad to have them.

There is software specific to the Diesel program - not sure if it is connected to the library

uas library is great.

Good

Were not used in this course, but it was used in others.

All required materials were from the textbooks required for the course.

We just used assigned text books and the Internet

Now that I think about it, I wonder if I could have gotten access to some of the books through the library.

Do I have to be an active student to have access to the library resources?

They are fine.

Great library staff. Positive attitude and professional demeanor.

Great support

I utilized the library for this course more than any other this semester.

The resources listed were not necessarily needed for the course because most of the information we referenced was from our required reading. The library services and resources could have
been helpful for some students but were not discussed or mentioned to first-year students, from the instructor. I am not a first-year student so I am pretty familiar with the library resources and services, although many first-year students are not. With that being said, I think that every Sitka start class should address the resources and services the library has to offer, for students who may be new to UAS and/or ill-informed. This Sitka start class did not seem to start new college students off on the right foot.

HIST105-J01 Library techs are all very supportive whenever I needed any assistance regards to finding and locating information.

HIST105-KD1 Great support

HIST131-KD1 Resources and services were well explained to the class and with every assignment.

HS105-J01 I was at the tech center to I didn’t have much access to the resources. However, if I could have greater access I would’ve definitely made it useful.

HS135-TD1 Course just wasn't relevant to these resources.

MATH211-JD1 When I had a question that was not addressed in the text, I did a google search. Most often this was, for example, "divisibility rules," or something similar.

MTR182-K01 Im not sure if being down in the maritime building is the reason for this, but i haven't had much time to go to the library this year. I know where it is, but i cant think of anything i would need on the other campus where the library is located.

PADM635-JD1 Maybe an online mandatory entrance to the graduate program to help people understand and utilize the Library would help engage students to use it more. One semester it was encouraged to get papers done early and then have them viewed by the writing lab. That was helpful for writing skills but it was difficult working and doing school at the same time. If there was a department assistant to coordinate some efforts like this, that would be great.

PADM645-JD1 I am new to the program and did not use these resources.

PADM688-JD1 I didn't really need resources beyond the content provided in class by the instructor, or found in the class text.

PADM690-JD1 I used google scholar online and I also have access to journals online as needed.

PADM628-JD1 great resources and services, I just didn't happen to use them this semester

PADM635-JD1 used online library to pull references.

PE103-J07 Don't need the library for this course except for finding something to reference for the final paper

PS293-J01 Very helpful

PSY101-J01 Extremely Helpful

PSY101-K01 I found that the resources provided by the library made my job as a student much less stressful. I knew that librarians could help me find information that was reliable. I appreciate the ability to use such sources.
PSY393-KD1  The library is always helpful and kind.

PSY440-KD1  Library staff was very helpful. They tried to assist me the best way they can with the resources they have. They helped me navigate and find specific sources. Overall they conducted themselves in a professional manner. They validated my issues and concerns which was helped improve my morale as a student.

SOC242-KD1  The library is always helpful.

SOC242-KD1  The UAS library was a great support for all of my course, even UAA.

SOC343-KD1  really helpful

SOC375-KD1  Great resources and staff

SPAN101-J02  The Spanish tutor was very nice and easy to talk to.

SPAN101-KD1  Great staff and resources available.

SPAN101-KD1  The library is always helpful.

SSCI200-J01  Got the job done.

SOC375-KD1  Library help needs to be improved. I've found that I have to go on my own with research. The UAS library assistants are typically clueless about what I need as far as acquiring academic essays for reference.

WRTG111-J04  I did not use the resources, however I'm sure they would have been helpful.

WRTG111-J04  I didn't really use the library for this class. It was helpful for other ones though.

WRTG111-K01  Excellent

WRTG111-K01  Excellent

WRTG110-J02  i bought all my stuff

WRTG111-J03  most useful part of our final paper.

WRTG111-TD2  SO proud of my university in regards to this!

WRTG211-J01  Always available when needed.

WRTG111-TD2  We were instructed to use library resources, but I found them hard to understand.

WRTG211-J01  The library services were very useful and helpful for the class research projects.

WRTG211-J02  The library staff were very helpful when I needed help in finding sources for my research papers
