

Library Student Ratings Report Spring 2016

Library Facility / Learning and Testing Center / General Feedback

ACCT122-JD1	the library is always a great source of information
ACCT202-JD2	Great services as always for being a useful resource for the students.
ACCT311-JD1	I used the Testing Center for proctoring tests. I'm not sure if that is part of the library services or just housed there.
ACCT342-JD1	The only resource necessary for this distance-ed course was use of UAS proctor facility which was available and helpful as needed.
ANTH101-KD1	The library staff has always been extremely help and kind.
ANTH202-JO2	I will continue to use the library like asking the circulation desk for textbook rentals and the reference desk for directions outside of class time when I need help.
ANTH312-KD1	I love Egan library, it is a world class resource and the entire staff is helpful and friendly. My only complaint is that the study rooms are not soundproof, and there always seems to be a shortage.
ANTH408-JO1	The library staff are always so helpful when I have questions.
ANTH408-JO1	Thank you!
ART401-JO1	Library is frequently a noisy place. Staff are sometime the loudest. No such thing as an "indoor" voice, and certainly no "library voice." Hard to concentrate on studies, reading.
BA151-JD1	Library essential!!! Study rooms essential!!
BA330-JD1	I've used the Library for other study sessions and enjoy/appreciate the Library.
BIOL103-JO1	Good and helpful.
BIOL103-TD1	I signed up for this class under the impression that there was a biology tutor available, shortly after the semester started, I was informed that there was NOT a biology tutor available. This was very disappointing, as I had planned to work closely with the tutor.
BIOL111-TD2	Use a lot for other courses
BIOL111-TD3	It was were I attended when the internet in town went out. It helped a lot. It is also where I do my testing
BIOL111-TD3	I did not use these services. I did try to use the tutor center once, there was no answer, I left a message, but never received a return call.
BIOL112-JO1	two times I tried to meet with a tudor when I thought they would be there and they were not there
BIOL112-JO1	The learning center at the UAS library was very, very helpful for this course. It was necessary to have a place to go to study models and look at slides outside of class.
BIOL112-JO1	I didn't use the library resources for this class as the instructor provided us with all the necessary study materials, but I enjoy going to the library to study even tho all of my

	classes are in Anderson. I LOVE the Egan library and it's atmosphere; makes studying so much easier.
BIOL112-K01	I didn't need the library for this course but the library is very helpful.
BIOL112-TD3	Good resource
BIOL240-J01	I like studying at the library.
BIOL240-TD1	They are great
BIOL375-J01	The library deserves to have a much funding as possible. However, maybe not so much on the free printing. I think students should have a limit on how much they can print, like the color printing. Save the trees!
BIOL481-J01	The library staff was always very helpful when trying to track down articles for research papers. They helped avoid costs of viewing some scientific articles.
BIOL482-J01	The only thing I used the library for was to print out work for this course.
CHEM103-K01	I love the library at the university and it is very helpful, but I didn't need it for this course.
CHEM106-J02	Did not often need to use Library resources however, the Learning Center was invaluable and so were the chemistry tutors!
CIS105-K01	very helpful in regards to loaning me books and helpful in answering questions and very polite
CIS310-JD1	Simply excellent, please keep it up.
COMM111-J01	I've always found the people at the library to be extremely helpful and friendly, but I rarely needed the library for anything in this class.
COMM111-J02	Going to the library for our informative and historical speeches was very helpful, it helped me find a book that contained the actual historic speech that I was analyzing.
COMM237-KD1	The resources that I used for this class was great and found very useful. Especially the Library workers, they were awesome at helping find efficient information that was needed for this class.
COMM237-KD1	I've put N/A on this because up to this point I didn't use them for this course, however, we have a final assignment due in the next couple of weeks which will require me to use them. I don't foresee a problem, as I have used them in the past
COMM237-KD1	It was necessary to have and we used this resource, however it was only needed 40% of the time.
COMM241-J01	Learned about study rooms through this class.
ECON201-J01	an economics tutor once a week in the learning center would be beneficial
ED460-JD1	As a paying senior in the program, I think it's important to allow unlimited printing at the library. I was approached once for printing copies for a project for my students during my student teaching take over. It was not an incredible amount of printing, and I have printed a LOT more in past years. I was allowed to finish the project, but I heard that unlimited copies might not be allowed in the future. I understand why this may be

	necessary in some situations, but I feel like exceptions should still be recognized and honored.
EDRE675-JD1	I did not use any of the library resources for this course, but have in the past. They have been very helpful in the past.
EDSE605-JD1	I love the Egan library!
ENGL092-J01	Love Writing Center
ENGL110-K01	Very helpful and accommodating staff.
ENGL111-J02	Liberian were extremely helpful with helping me find hard bound sources for my essays.
ENGL111-J02	I will continue to use the writing center when I need help.
ENGL211-TD1	Helpful!
ENGL211-TD2	The library staff has always been very helpful and kind.
ENGL211-TD2	Thank you for forcing us to use our library for one of our assignments! As a distance learner, I'm not sure that I would have stumbled upon it's valuable resources otherwise!
ENGL212-J01	They're always really great. Never had any bad incident with them ever.
ENGL212-KD1	The Library resources were very helpful
ENGL212-KD1	I did not use the library for this course, however I have used it in the past and found it to be very helpful.
ENGL261-J01	the printer saved my ass a few times but it's still way too slow, It took me 10 minutes to print 30 pages - that's like 3 pages a minute!
ENGL303-J01	You people are awesome!!
ENGL303-J01	I used the library a lot for reading and writing my papers. I didn't know there were so many other resources at my disposal!
ENGL303-J01	I had no trouble using the resources available to me.
ENGL461-TD1	FAN-FUCKING-TASTIC
ENVS338-J01	love the library! great staff, great resource.
GEOL104-J01	The library staff is awesome and always has what I need!
GEOL104-J01	library is top-notch.
HIST492-KD1	This class would not have been possible form me without the library. Kathleen is so knowledgeable and so helpful, she was really a god send!

HNRS392-J01	The printing and computers at the library were useful.
HS135-J01	I had used the UAS library to gather info for my paper.
MATH055-J02	Great support.
MATH055-TD1	Tutors were very helpful and pleasant to work with.
MATH105-J02	keep up the good work
MATH105-J02	I should really use the resources more...
MATH105-J02	I love the library!
MATH105-K01	It's nice to go into the library and do homework, but I really don't need to have the staff help with homework and stuff. It's much more helpful going to the student center for math.
MATH151-J02	The learning center was a savior.
MATH151-J02	Math tutors in the learning center are always knowledgeable and friendly.
MATH151-J02	its good
MATH151-TD2	Once more I'd like to praise the UAS library, however it was not relevant to this course.
MATH152-J01	The people in the learning center as well as the library staff are awesome!
MATH152-J01	I will continue to use the learning center. However, I will try to do my work without the help of tutors until I need help.
MATH152-J01	I love the UAS library- the librarians are so helpful and kind.
MATH251-J01	went to the learning center for every homework assignment
MATH251-J01	The Learning Center and it's staff is incredibly helpful and friendly. I used their services very frequently.
MATH251-J01	PLEASE KEEP THE LEARNING CENTER AVAILABLE for math tutoring. It was so very helpful. All the student employees were fantastic as well as the faculty!
PE103-J07	The library really helps me to complete my classes.
PHIL301-J01	The Egan library and staff are very helpful resources.
PHYS104-J01	The learning center has no physics help available.
PHYS104-J01	All good, but it would have been nice to find a real physics tutor for homework help
PSY250-KD1	The library staff helped me out when I needed them.
PSY250-KD1	I love our library and staff:) we do need solo study rooms though, and soundproofing would be nice in study rooms.

PSY333-KD1	Always courteous and friendly when asked for help.
PSY340-KD1	The library was good for providing resource materials and finding places to get resources.
PSY406-J01	printing!!
PSY406-J01	Great!
SOC101-J01	Lords work yo
SOC201-KD1	The library was essential to this course.
SOC201-KD1	Egan has a world class collection. Everyone on staff is helpful and friendly. It would be great to have individual soundproof study "pods."
SOC375-KD1	I love our library and its staff. So many great resources, such great help! I would say that the Juneau campus study rooms need a bit of work. They are not soundproof, and it doesn't seem like there are ever enough.
SOC404-J01	The way the library is set up is efficient for printing when it's needed.
SOC404-J01	The library resources helped a bit when we needed had assignments that required them.
SPAN318-J01	Least likely to have studies or a train of thought interrupted be noisy staff or patrons when using study rooms.
STAT273-TD1	I appreciate all that the UAS library staff due to help me in my endeavors.
STAT400-JD1	I used library materials for this course. I also used the library's printers to print assignment notes for this course. Those tools were very helpful.
THR111-J01	There were no necessary needs of library resources, but I do continue to use the library.

Collections and Resources

ALST300-JD2	To answer many of the questions in this class, scholarly articles weren't necessarily needed. Although, you could still find credible sources online. Sometimes I did use the library services.
BA151-JD1	I tried to use the library resources for my CIP project, however there was not much information available about the company I was studying. This is mostly due to the company, Etsy, often looked at from an Etsy seller point of view and not the company itself.
BIOL112-TD3	Most everything I needed research for was for my cancer disease team posts and I preferred going straight to the scholarly cancer sites for my research rather than dealing with a library.
BIOL271-J01	I had a fun time looking through the archives for work related to my class project.
BIOL305-J01	A subscription to Web of Science would be useful.
BIOL481-J01	Google scholar is more helpful

BIOL482-J01	VERY useful for capstone project. interlibrary loan is AMAZING
BIOL482-J01	The online data bases have been very important in this and many other classes I have taken.
BIOL482-J01	Most of the papers I needed for the research project I was able to get for free through the library.
BIOL482-J01	Library Database is very helpful for access to scientific journals.
CHEM104-J01	The library resources were very valuable for our presentation project.
CHEM106-J01	past exams were very beneficial when studying.
COMM111-KD1	The one time I had to borrow a laptop from the UAS library, it did not work. It ruined an important class I was logged into. But I can't blame the staff as they were wonderful about it and were seeking to fix the problem (it wasn't just the one laptop; it was all of them).
COMM111-TD1	This is a great source for resources needed for my research papers.
DESL107-J01	Restock text books for diesel classes
DESL180-J01	The book for this class was not available at the library and that is inconvenient when shipping is delayed.
DESL180-J01	Not up to date with books brah
DESL255-J01	The library loan program for books used by the tech center is out dated or nonexistent in all of the the classes taught by the diesel program. (With the exception of engines and hydraulics classes)
ED320A-JD1	I checked out the library book I needed for the class which saved me \$100!
ED333-JD1	Very few occasions where we were required to use library resources. I researched on my own from time to time because I was interested in learning more about some of the topics we touched on in class. In these cases the library resources were very helpful.
ED405-JD1	I live on the Kenai Peninsula and used 4 different libraries for getting books for this course and I did have to use the interlibrary loan program for 1 book and I used the KPC Library for another book. Both were extremely helpful and their hours were convenient.
ED639-JD1	Still using Zotero though nice tech tool from Librarian last July
EDRE696-JD1	More Ed journals! Quick reference sheet on how to manipulate search bars to get what you want, always tricky to figure out.
ENGL211-J01	Helpful like usual.
ENGL211-TD1	Very easy search function and a lot of information available!!
ENGL211-TD2	The UAS library is where I do my research on all subjects I would like to investigate further. Great place to find resources for your research papers.
ENGL211-TD2	Egan library resources were super helpful. I only rated a 4 simply because I didn't use them often, but when I did, I appreciated the access to great resources.

ENGL211-TD2	After getting the knack for researching materials through the online Egan library search engine, research became a lot easier. Having access to such a wide variety of materials allowed me to produce better, more thoroughly researched essays; and thanks to all the kind librarians who helped me along the way!
ENGL261-JD2	I checked out numerous YA books to help me with my own writing assignments - the library was awesome for that support.
ENGL303-J01	Ebsco came in handy,
ENGL365-JD1	I wish there was a bigger selection for texts written from native perspectives
ENVS338-J01	The library was helpful only because it has the ARC map program available on its computers.
GEOG101-J01	It was great having the text on reserve.
GEOG312-KD1	The online research was helpful to do my research paper. Thanks!
GEOG312-KD1	I used the UAA consortium library as my source for academic journals as well as credible online sources.
GOVT101-KD1	I love JSTOR! Thank you so much for offering this service! It is a life saver for college students as we can access peer reviewed articles without having to pay for each one.
GOVT101-KD1	finding articles is really nice and pretty easy when using the data bases on the UAS library site.
HIST106-J01	The textbooks used in this class were provided at the Egan Library. This is one of the few classes I have taken where that is the case. It would be beneficial to the students if two or three copies of each textbook for every class were held at the library.
HIST132-J01	We used JSTOR for this class and it worked pretty well for what we needed it for.
JOUR101-TD1	Online resources from UAS Egan library were used in my Final Project/Paper
MATH251-J01	I borrowed the library Stewart Calculus text book on reserve several times.
PADM618-JD1	this is essential for case law studies
PSY101-KD2	Great resources for when I forgot my textbook at home!
PSY333-KD1	The Campus Library gave me a lot of sources for my research paper and I appreciate them for that.
SPAN102-J01	They have a nice selection of Spanish movies, but other than that I don't recall using the library services in this class.
SSCI200-J01	Thanks for having our textbooks available for scanning!
STAT107-TD1	Great! I was able to find charts and graphs that I needed for this course.

Library Online

ALNS001-H02	Information could be slightly hard to get to, and websites weren't always very clear.
ALST300-JD1	I found that I was willing to use extension services through the library, but I wasn't sure they would get to me on time.
ANTH312-KD1	Library function was inconsistent, efforts must be made to enhance internet-based source access.
ANTH205-KD1	Very helpful and had all the materials I needed for certain assignments.
ANTH205-KD1	Journal access is amazing
ANTH205-KD1	It was fruterating that so many peer reviewed journals wanted paid subscriptions for them when I followed links to articles and journals out of the library
ANTH335-KD1	On line library impossible to navigate efficiently
ANTH335-KD1	Hard to use the library when I live in Kenai. But I use the online library sometimes from UAA Consortium.
ANTH350-J01	lots of problems with articles through Science Direct in this and other classes. Have not yet been able to download a pdf that was supposed to be free from Science Direct. I'm always asked to pay for it.
ANTH350-J01	First time using the ILLIAD system. I seriously regret not using it sooner. There was, however, a mix-up when it came to sending a book to me from the Anchorage Library. There was a specific book that I needed for a paper (Kenyon's work on Jericho). I ordered it three weeks in advance, expecting to get it in time for my paper's due date. Firstly: The wrong book was sent (A book on welding of all things...). When I went back to the library to correct this mistake, the book that I needed didn't arrive until two days after the paper was due (A total of 24 days after I had ordered the book originally). I'm not sure if this screw up was a result of an employee or inefficiencies in the system, but not having that primary reference material negatively impacted my grade on the paper significantly. Needless to say, this was very frustrating, and merits a change.
BA151-JD1	I mostly used the internet and only once looked at the online library.
BA462-JD1	Library services were critical for my success with this course.
BA462-JD1	In 5 years, I have never successfully used UAS library resources, though I try every semester. The user interface is a nightmare. I took the library mini class, but still could not successfully retrieve articles or references, nor get digital books to work for me on any platform. I used UAA's services instead without any problems, and found what I needed.
BA490-JD1	using the library is a must- this entire course was about writing and having additional resources to support material.
BIOL111-TD3	Online access to certain scientific articles was very helpful in conducting research associated with this course.
ED639-JD1	online research effective
EDET637-JD1	Please keep updating Instructional Technology resources. This is vital since change in this field is almost daily.

EDET673-JD1	The resources are excellent. It seemed like some of the books available were past editions rather than current editions. The more resources we have for Instructional Technology, the deeper our learning as students can delve. I noticed that when I found an article with a list of articles that addressed the legal issues for my class, I could not get them. Maybe our legal library at UAS needs to be strengthened--broadened to include more on Instructional Technology case studies and new laws in other states being implemented.
EDRE678-JD1	There was no need unless you can access resources online though Kindle or another source. I used my local library. Online courses cause me to not use school library. Most courses I have experienced require some sort of online research and it feels contrived. This professor did not ask us to go find articles supporting our learning, she pre-chose high quality items.
HIM135-TD1	Didn't use library resources, but I did use the internet (Google, etc.) a lot in the written projects.
HIST492-KD1	Consortium library is impossible to navigate through in a timely manor. Librarians at UAS were very cordial but not helpful in navigating library (because of the system not their fault). Search perimeter selections are too minimal for the library and getting thousands of hits that no not deal with the subject matter is more hurtful than helpful.
ODS393-J01	I always find the online data base to be a great resource!
PADM601-JD1	Very useful and important. Took a little to figure out the system, but that's fine.
PADM601-JD1	Using the search engine is a bit frustrating but the professor took some time to help us navigate which was very helpful!
PADM601-JD1	Love having access to the library remotely
PADM601-JD1	I had trouble accessing some journals identified through a search of the databases... not sure why.
PADM624-JD2	I really only used the Library Resources for finding articles to support my final paper.
PADM628-JD1	The online library access is really helpful and relatively easy to use.
PSY101-KD1	The online Egan library was invaluable in helping me research efficiently and effectively--and thanks to all the helpful librarians who assisted me along the way!
PSY101-KD2	Except for on line services of PsychInfo, the library wasn't needed.
PSY430-KD1	I used the online article collections. Did not use the physical materials.
SOC101-KD1	The Library Resources and Services were in-depth and increasingly helpful for my e-learning course.
SOC201-KD1	I used the UAS library resources every week during this class. JSTOR especially! It really helped.
SOC333-KD1	I love JSTOR! It is a life saver as a college student to have such a comprehensive resource available for students. Thank you so much for offering this excellent service!
SOC375-KD1	THANK YOU FOR JSTOR! It is a life saver! I use it for nearly every class... it has so many great resources for writing papers and learning about topics. It is truly a college kid's dream resource.

SOC375-KD1	Ebsco host!Academic search premier!
SSCI300-J01	Several times I needed an article that was only available through ILL. I received the digital articles in a very timely fashion and am extremely pleased. I did have issues trying to access full text .pdf files from Science Direct, but have not had an opportunity yet to bring it to the Library's attention. I figured out a way to circumvent the problem, and I do intend to talk with a librarian about the issue when I have more time available.

Library Instruction and User Education

ANTH335-KD1	There was a video posted on research methods.
ANTH205-KD1	Very helpful and had all the materials I needed for certain assignments.
ANTH205-KD1	Journal access is amazing
ANTH205-KD1	It was fruterating that so many peer reviewed journals wanted paid subscriptions for them when I followed links to articles and journals out of the library
ANTH205-KD1	For the first time, a very helpful librarian walked me through the steps of finding a peer-reviewed journal.
ANTH211-KD1	The staff was very helpful.
ANTH280-K02	The librarian was very helpful to us. pulled books she thought we might like and gave a brief presentation on how to use some of the databases, which was VERY useful.
ANTH280-K02	I really didn't use the library for this course, but they are always so friendly and helpful - I still have to give them kudos!
ART262-TD1	I wish we were required to take the Library Science course in the first 2 years. I am a senior and doing it as a last class...
EDSE605-JD1	Prof. Batchelder had a web seminar class with the library services in Juneau. She gave us a great tutorial.
ENGL111-J03	We had a presentation from one of the members of library that talked more about research help and the UAS library resources which was really helpful.
ENGL211-TD1	Still a little confused on searching for articles, could be my topic and harder to find stuff but found it a little tricky.
PE103-J02	Library staff came and gave a presentation on how to find good research during one of the classes. It was very helpful.
PSY101-J01	I appreciated having someone from the library come in to the class and showing us how to use PsycINFO since that was a very important resource that we had to use to do assignments.
PSY101-J01	Extremely helpful and needed for assignments and personal research.
PSY250-K01	Helpful and accommodating library staff. Like the lectures given by Professors at the library. I have sat in on Professors Radzilowsk and Polanska lectures very informative and interactive question sessions.

SOC404-J01	I am still completing my research project, and without the library staff I would have been lost. They were wonderfully helpful, and I anticipate at least one more visit to Jennifer Ward for assistance.
------------	---

Courses where at least one student commented “didn’t need”, “didn’t use”, or “n/a”

BA251-J01	ART105-J01	ED626-JD1	MATH151-TD2
