

## Student Course Evaluations / Library Spring 2015

### Library Facility / Learning & Testing Center / Writing Studio

ACCT202-JD1 The UAS library and resources available for studying are wonderful. I did not have a lot of need for them in this particular class do to the nature of the e-learning course.

ACCT202-JD2 I wish the tutoring wasn't on Monday - the day that the homework is due. And the one time that I went, the tutor relied HEAVILY on the book and the answers the program provided, and was unable to answer my questions without reading what the book was telling her to say. When I finally pulled her away from the computer answers, even she had to do some guessing to figure out what the answer was. It would have been helpful to have a tutor who was more proficient in what we were learning.

ACCT202-JD3 I appreciated the use of the group study rooms.

ACCT202-JD3 I really appreciate the private study rooms where multiple people can work together and discuss homework problems without disturbing other library users. I just wish there were more of them.

ANTH202-J01 I didn't use any library resources for this course except for a quiet place to go and read.

ART261-J01 I am constantly in the UAS Library...lots to offer. Actually checked out my course book from there, literally saving over \$150.00 bucks! :)

BIOL111-TD1 I did not need to use the library for anything but the testing center. The testing center was very convenient, and easy to get in to. It would be nice to have more hours of availability. I found it challenging to get in to take a test with enough time after work but my tests were closed on Saturdays, which the testing center was not open on. I understand that it takes staff to keep the testing centers open but it would be more convenient for people like me who have to work full time to possibly be open until 9PM on the week days and have more weekend availability as well.

BIOL111-TD2 The student center was very helpful for computer support while learning how to login to web sessions. They also were great about providing rooms to listen to web meetings or providing lots of time slots to proctor exams.

BIOL111-TD2 I used the UAS library as a place to study. The library is an essential tool in our education, whether it is the resources or space used.

BIOL482-J01 I don't often use the libraries resources aside from the study spaces they provide.

BIOL240-TD1 I reserved the room a lot for study time. I also order a book via interlibrary loan for the first part of the semester.

BIOL482-J01 Library needs more space to study and more computers for students.

CHEM103-K01 I did utilize the campus library. I expect to use it more in the future.

CHEM103-K01 I did utilize the campus library. I expect to use it more in the future.

CHEM106-J01 The library is the best place to study. The learning center and tutoring hours were AMAZING!

ENGL110-J01 I got a lot of quiet thinking time in the library, and they had help for me if I needed some.

ENGL110-J02 I should be using the writing center because I don't have available tools at home to transfer from my computer and make appointments to work on my essays.

ENGL211-TD1 the Sitka campus needs a library or an official partnership with a public entity. as there is not one on campus.

## Student Course Evaluations / Library Spring 2015

- ENGL215-J01 The writing center was awesome! I wouldn't have been able to finish the course without them!
- ENGL461-J01 Thanks Library for allowing free printing!
- HIM280-TD1 not sure if tutors are a part of this service, but the tutor who reviewed my paper gave critical insight into how I could improve. Thanks,
- HIST106-J01 I didn't use the library resources for anything in this class. Unless you count the Writing Studio.
- HS105-J02 The individual rooms were very nice for study groups.
- MATH105-J01 I used the learning center often, Auggie rocks!!!!
- MATH105-KD1 The Exam Center is a wonderful resource.
- MATH105-T01 The math tutors were incredibly helpful!!!Thank you so much for them!!!!!!!!!!
- MATH107-J02 I don't know if the learning center falls in this category, but if it does then they are always VERY helpful.
- MATH107-J03 The learning center is very helpful and I spent a lot of time there.
- MATH107-J03 Only time I used the library for this course was to take tests in the Learning Center and have a quiet place to do homework.
- MATH107-J03 I went to the learning center every day for help with homework, the resources and people were very helpful.
- MATH107-J03 Group study rooms!!! Use 4 days a week to meet with 2 other students and tutors. Thank goodness for graphing calculators being available for check out. Learning Center is helpful, depends on who assists. I am picky who helps me because I have been given incorrect information.
- MATH200-J01 There aren't really any relevant resources in the library to this course, other than the learning center. The tutors in the learning center are very limited on the extent that they are able to help calculus students, and I have gotten bad advice from them quite a few times this semester.
- MATH200-J01 THE LEARNING CENTER ROCKS !!!!!!!!!!!!!
- MATH200-J01 Learning Center useful.
- MATH201-J01 The Learning Center was a great tool in being successful in this class.
- PADM628-JD1 I don't use library resources or services every week, but I typically use them both at least once a semester for each class. Please do not eliminate these resources or services. It's not like the bookstore, which provides a service I can get elsewhere. The UAS library, and its staff, is a tremendous asset to UAS, and one that saves me every term at a critical moment in my learning.
- PHIL201-J01 Had an excellent experience using the writing studio to help with my midterm papers!
- PHIL201-J01 Cool that they have the books to rent.
- PHYS212-J01 I did not need to use the library for this course. It would be great if the library had more study rooms. I do not really see students pulling books off the shelves. Do we really need the traditional style library to conduct research anymore?
- SOC410-J01 Library was really useful because we had to print things off and we also used a lot of the rooms for our class project.

## Student Course Evaluations / Library Spring 2015

- SPAN102-J01 I love the UAS Library even if it didn't relate directly to this course. <3
- SPAN102-KD1 These two questions (above) do not apply to this class as it was an online class and the text was the only resource required (other than my Spanish/English Dictionary).
- SSCI200-J01 I only used the library as a quiet place to read
- SSCI300-J01 Printing saved my life!
- SSCI373-J01 It was a necessity to spend time in the library! Super useful.
- STAT273-TD1 I love working in the library, but the resources didn't directly help me with this class. Only my being in the library was helpful haha homework
- SSCI373-J01 It was a necessity to spend time in the library! Super useful.
- STAT273-TD1 I love working in the library, but the resources didn't directly help me with this class. Only my being in the library was helpful haha homework time!

### Collections

- AKL106-J01 It was really nice to have the opportunity to look through the library's collection of books on Tlingit, Haida, and Tsimshian.
- ALNG001-H02 The We the People text worked very well with this course.
- ANTH101-KD1 The Egan library was very helpful with the writing assignments for this course, especially for secondary sources.
- ANTH205-KD2 JSTOR and egandb are great resources!
- ANTH205-KD2 I found JSTOR to be helpful when looking for the appropriate articles for my 2nd Essay on Upper Paleolithic Culture.
- ANTH202-J02 It was nice to have the books on reserve just in case we forgot ours at home.
- ART401-J01 The library resources and services were helpful because of the ceramic books they have and being able to print there.
- ASL102-J01 Plenty of resources used from the library....thanks! :)
- ASTR225-J01 the textbook was available to rent at the library
- BIOL106-J02 The ProQuest program was excellent for finding science articles. Please keep that program available for next year.
- BIOL271-J02 I love studying there.
- BIOL355-J01 Checking out the textbook was awesome so i didn't have to buy it.
- BIOL384-J01 Cool.
- BIOL482-J01 Thank you for having the textbook and Writing about Biology book on course reserves at the library. Very helpful!
- BIOL482-J01 Library website provided a lot of help for capstone paper research.

## Student Course Evaluations / Library Spring 2015

- CHEM342-J02 I think the course textbook (Biochemistry: A Short Course) should be available on reserve.
- CHEM103-K01 I utilized the graphing calculators for any testing I needed and they were VERY helpful :)
- ECON100-J01 The library can stop being awesome. They fined me too often when I was trying to check out the three hour on-reserve books.
- ECON201-J01 I used the textbook rental service all semester and it was very helpful.
- ECON201-J01 I had the library to lend me the book for hours at a time to make copies would waiting for my book.
- ECON201-KD1 It would have been really interesting to know more about what the library has to offer in regards to economic research. Information from this class will be useful for the rest of my life and I will be utilizing as part of all business analysis activities and investment considerations. I am wanting to look into my local community for ways to research real time data and participate in economic discussions that affect the region and the State.
- ED405-JD1 Spangler's Alaskana collection in the Egan library was helpful once I learned how to access it (it is located behind the circulation desk and you can't browse it, you have to ask for specific titles). It is helpful that the Egan library partners with the public library (ILL) and I put a lot of titles on hold and picked them up at the nearest location.
- ED405-JD1 The librarians were very helpful, unfortunately due to the fact that this was a children's lit class some a majority of the books could not be rented from the college library.
- ENGL311-J01 Course books were not at the library
- GEOL301-J01 The older librarians often seem intimidated or overwhelmed by questions nor are they very proficient at using their own system so their help is usually far and few between. They say they have copies of textbooks on hand but this semester more often than not they didn't.
- HIST106-J01 I would keep renting books and read from them that are required for this course.
- HS105-J01 Aside from the library, it was very hard for some of the students (including myself) to receive textbooks that we payed for via MBSdirect and the bookstore shutting down. I didn't receive my textbook until a month after class started and another student didn't receive her's until two months after. We ordered them at the same time as other classmates who received them in an acceptable amount of time. I paid full price for a book I was not able to use for a substantial period of time.
- HIST132-KD1 Need more history of America DVD's. I know that there are really good detailed documentaries from History Channel dvds.
- MATH054-TD1 Bring the book store back.
- MATH105-J01 I would like to continue to rent or check out the text book until I receive a text book I order online.
- PADM624-JD1 It was sometimes challenging to get current on-line articles related to Human Resources.
- PE103-J07 The library has yoga-related resources but they were not needed to meet the course requirements and I have my own resources at home.
- PSY101-KD1 Yes, I used PSYCH INFO a lot.
- SOC101-J01 My book did not arrive at the beginning of class, and I depended on the library copy for several days.

## Student Course Evaluations / Library Spring 2015

SOC302-KD1 The APA articles were very helpful. Having access to full length articles was very important and I would like to have seen even more articles (especially with full length availability).

SSCI373-J01 PsychInfo is a MUST for this class.

STAT400-JD1 Please expand the literature database to include sources like Wiley.

### Online Services at Egan

ANTH205-KD2 JSTOR and egandb are great resources!

ANTH205-KD2 I found JSTOR to be helpful when looking for the appropriate articles for my 2nd Essay on Upper Paleolithic Culture.

ANTH311-J01 There are many articles that turn up in the searches that are actually not in the library, and when I try to find them online, they are prohibitive or not accessible.

ANTH311-J01 Interlibrary loan was incredibly valuable and a much needed resource for this class. Also JSTOR. I used both frequently.

ANTH311-J01 Interlibrary loan can be better conducted. I believe just signing for the book is irresponsible and should be checked out to the person. Also, the librarians should be better at helping students find books. I asked to help find a book, and i got pushed between librarians, with no end result of helping me. I will only use online resources from now on. Also, the library should have the latest versions of books. A lot of Professors want recent research because this become outdated.

ANTH393-J01 Interlibrary loan was a much used resource for this course as was JSTOR.

ANTH393-J01 I love Flow!

BA151-JD2 I was able to access the Egan library online from my home and was able to find information that I needed for my final assignment.

BA301-JD1 I used Ebscohost

BA493-JD1 Ebsco, Onesearch and Refworks were all NECESSARY for me to be successful in this course.

BA493-JD1 Easy to access resources online.

BA493-JD1 Difficult to navigate the system and get a journal or article.

BIOL106-J02 The ProQuest program was excellent for finding science articles. Please keep that program available for next year.

BIOL482-J01 I had a paper that I could of asked for an inter-library loan for, but that seemed like too much work.

ED626-JD1 The Egan library staff was extremely knowledgeable and helpful. A document I needed for my research was not available, and a staff member patiently took me through the steps to register and then make the interlibrary loan request. Thank you!

ED626-JD1 I find that the AKSLED website is more user friendly and easier to navigate than the UAS library webpage.

## Student Course Evaluations / Library Spring 2015

- ED626-JD1 During the beginning stages of this course, the Library Resources were very helpful in not only accessing articles and books for the literature review but in presenting the library resources available to us. By using those resources I gained a better understanding of how to access and use the different search tools and felt confident that I could find what I needed. This also helped me in my other course and I will continue to use the different library resources for future courses.
- ED639-JD1 When I used the library resources & services last summer, they were outstanding & very helpful.
- ED639-JD1 I didn't access personalized library services but I'm sure they would have been helpful had I needed to.
- ED639-JD1 Big yayyyy! for digital library services!
- ED693-J01 I never used them.
- EDET628-JD1 I never used the library with my online classes.
- EDET637-JD1 I experienced frustration with the Egan Library ProQuest ebrary site during this course. There were times when the site was experiencing technical issues that prevented me from using the resources.
- EDMA608-JD1 I would like to learn about the online library resources.
- EDRE675-JD1 It was hard to get some resources, but I called the library and the lady was nice enough to get me going on some interlibrary loans going.
- EDRE675-JD1 I found the AKSLED and GoogleScholar websites to be more user friendly.
- ENGL211-TD2 The resources at the Egan library located on the Juneau campus of UAS offers many helpful tools to better equip students in the process of research and implementation which includes supplies such as books and computers.
- ENGL211-TD2 Our Final Paper requires two highly specialized resources which the library was able to provide
- ENGL211-TD2 I printed off all the stories and papers that I needed there!
- ENGL211-TD2 Good stuff.
- ENGL212-J02 I had to write multiple research papers. Our library data base was the best, I able to find all of the information I needed in a relatively short period of time. A big thank you to our library staff.
- ENGL212-KD1 Having a database from home is Great!
- ENGL418-J01 Online article collections are helpful for additional research
- FT273-TD1 I used the library article access to do research for my semester project and wouldn't have been able to access several of the papers I used if not for the access
- GOVT101-KD1 The library staff was very helpful during our walkthrough of the databases which was needed for our projects. She did a great job of explaining where everything was and made it known that she was available if any help was needed.
- HIST492-KD1 I love JSTOR and the librarians explanation of how to use it and demonstrations were very helpful!
- LS111-JD1 I loved the fact I can order a book from an inter library loan system and get it here to this island!

## Student Course Evaluations / Library Spring 2015

- LS111-JD1      Excellent resources in the library and I especially appreciated the Library Research Guides and the print button easily seen and accessible. Interlibrary loan is fantastic.
- PADM601-JD1    The online library services are absolutely great.
- PADM624-JD2    Used the Egan library to search for articles to write papers, but could have written them w/o using the library.
- PADM628-JD3    I love all our library resources, especially all the article databases we have access to!
- PADM639-JD1    There was not a lot of need to use the library services directly for class, but it was helpful in looking at supplemental research papers on some of the topics.
- PSY101-KD2     The resources available at the Egan library on campus are extremely helpful, especially when conducting research for our final project.
- SOC101-KD1     I found JSTOR to be helpful when looking for scholarly empirical research articles for a few of the projects in this course.
- SOC101-KD1     finding scholarly empirical peer-reviewed articles online was difficult.
- SSCI300-J01     UAS library journal search is not as good as google scholar.
- SSCI300-J01     PsychInfo is a life saver for this class. Need it 100%
- SSCI300-KD1     Used Ebscohost a lot
- SSCI373-J01     The article collections were certainly useful for this course and very much appreciate these resources. ILL was not the easiest at times but the library staff were always helpful and kind.
- SSCI373-J01     PsychInfo is a MUST for this class.
- STAT400-JD1     Please expand the literature database to include sources like Wiley.

### Library Instruction, User Education and General

- ACCT202-JD2     I don't know if the library system I am using .. I just lately have noticed that the computers in UAS library is getting complicated to use it. Sometimes it takes too much time to open it and it even got stuck .. I think something is not correct to be happening.
- ALST300-JD2     The library faculty and staff are amazing!! We have the best library in the UA system!!
- ANTH101-KD1     The Egan library was very helpful with the writing assignments for this course, especially for secondary sources.
- ANTH202-J01     Those who work in the library, I am forever grateful. You all were incredibly helpful.
- ANTH211-KD1     The lecture recorded by the librarian was very helpful in finding my way through the databases. It was wonderful to have these resources available for working on our Class Project.
- ANTH211-KD1     Very confusing and hard to use, but required by the teacher to use for attaining sources for the research paper. The "searching for articles" website was impossible to navigate, even with step-by-step instructions from the teacher, things just didn't add up.

## Student Course Evaluations / Library Spring 2015

- ANTH211-KD1 sometimes the uas egan library did not give me the things I needed, however, more often than not they did.
- ANTH211-KD1 Egan Library is fantastic and you need to keep everyone who works there full-time on staff
- ANTH342-J01 Wonderful! The staff at the Library are always so nice and helpful. Thanks so much for the hard work! The Egan Library online setup is so helpful, I don't know what I would do with out it!
- ART263-J01 The librarian that assisted me was very helpful and pointed me immediately in the correct direction. I really appreciated her willingness and friendliness.
- BA151-JD1 I could not get on the website between blackboard and other links is archaic and needs to be updated.
- BA151-JD1 We had a few assignments that we had to use the library resources and I really like how easy it was to find what I needed
- BA151-JD1 The ladies in the library helped me research more effectively.
- ED626-JD1 The Egan library staff was extremely knowledgeable and helpful. A document I needed for my research was not available, and a staff member patiently took me through the steps to register and then make the interlibrary loan request. Thank you!
- ENGL211-TD1 The Egan library was very helpful with writing papers in this course, secondary sources were helpful.
- ENGL211-TD1 Mr. Cox assisted me this semester with finding sources for my papers. Breanne Stewart also assisted me with editing my papers for this semester. Both were extremely helpful and professional.
- ENGL211-J03 Instruction session on using artemis was helpful for this class, especially because it was a new database to UAS at the beginning of the semester.
- GOVT313-J01 Glenn and Bethany were very helpful and informative in the likes of our research paper.
- GOVT393-KD1 Love the librarians!
- PE103-J01 Bethany's presentation was wonderful!
- PE103-J04 Somebody did come in and tell how to use the Library's database to search info.
- PSY101-J01 The class with Bethany Wikes on using psychinfo database was particularly helpful.
- PSY101-J01 I learned a lot of essential tips from the resource tutorial.
- PSY101-J01 Any instruction on this usually just confused me further
- PSY101-KD2 I happened to take the LS111 course simultaneously, which was very helpful in my research for PSY101. Bethany Wilkes is herself a valuable UAS Library resource!
- SOC375-KD1 I love the fact that Professor Polanska provides an introduction to library resources at the beginning of each semester. This is very helpful.
- SSCI300-J01 Library people are super helpful especially in courses with Professor Sesko where a lot of our research has to be done through the library.

## Student Course Evaluations / Library Spring 2015

### Constructive Feedback

BA330-JD1	Library services are always below par for me as a distance student
BA330-JD1	Library is helpful nethertheless
BA343-JD1	I am taking online classes so I never used the UAS Library.
BA375-JD1	N/A
BA461-JD1	Not needed.
BA461-JD1	I go to UAA, so this does not feel quite relevant to me.
BA462-JD2	OD not have access to the library on campus
BA466-JD1	Searching for resources is cumbersome the way the system is set up.
BA490-JD1	Did not use Library Resources or Services for this course.
BA493-JD1	Need more resources and make it user friendly
