ED627-J01	Excellent! Jonas was superb!
ED627-J01	Thank you to Jonas for the research support.
ED627-J01	The Library services and Staff played a CRITICAL role in student success in this course. Jonas, Beatrice, and all other staff members were extremely knowledgeable and helpful. I was very impressed. Many thanks!
ED627-J01	They were very helpful. I think they can go straight into how to locate the articles we need. We don't need an hour presentation. We just need a quick refresher course.
ED637-J01	Excellent Services! Jonah is awesome!
ED637-J01	Thank you Jonas and library staff! I appreciated the summer hours and help.
ED637-J01	These resources need to be introduced at the very first week of classes, so we can hit the ground running with the other assignments.
EDRE676-JD1	The librarian helped me locate books. She went above and beyond to be sure I had everything I needed.
SOC101-KD1	I liked that we went over these sources in our first WebMeeting

Online Egan Library Services

ED333-JD1	Like many taking this class I live in an area that does not have a big library. Being able to use the UAS resources was amazing!
ENGL111-KD1	I chatted with a librarian about something I needed help with and she was able to assist me expediently. I thought it was pretty cool, I didn't even have to leave the comfort of my home!
ENGL111-KD1	I liked how she provided links and information of where we can find resources that we could use in our writing assignments.
ENGL111-KD1	The online portal for the Ebscohost was helpful, but limiting in the function of basics items. It kept signing me out. Plus, over and over it wouldn't let me keep open my previous window when I started a new search. To keep multiple docs open I had to continuing sign into the UAS Library port. I spent an entire day of research and lost all my papers I saved to the file because I didn't notice that the system didn't keep me signed in.
HS203-TD1	The library always provides me with great resources. Love their online databases for scientific, peer reviewed articles. Any chance they can get to expand in that area has the potential to improve student performance.
PADM601-JD1	I love having access to so many journals and the Ebscohost database.
PADM601-JD1	Too confusing to learn with too many options and pathway. I finally figured things out but like most university environments, things get overly complicated. In addition, the products do not work like the link between JSTOR and the New Ref works

PSY375-J01	The online library resources were very helpful when it came to writing my final paper.
SOC101-KD1	Love JSTOR
ANTH205-KD1	Easy to use library search function, very helpful.

BA151-JD1	Excellent, and the instructor gave great ideas on how to research for the given class topic. Actually the course was designed around building the project and research for the duration of the course.
BA301-JD1	I tried to use the UAS Egan Library and the UAA Consortium Library to research topics, however, I found both time consuming to find what I was looking for and just stayed with researching using Google.
EDET678-JD1	I noticed that had I not be self-taught at handling the online library, there were several times where no one would have been there to help me or get back to me in a timely manner.

EDSE605-JD1	The UAS library services were difficult to navigate without any prior knowledge.

ED669-J01	There was one journal I didn't have access to repeatedly during my research, it might have been on social education. I can't remember now.
ED680-J01	It would be nice to have more access to audio and visual media (like from the Smithsonian, world music libraries)
EDET677-JD1	It seems like there is more and more research available for the Instructional Design and Technology program.
PS313-KD1	I could not have done this class without the library resources! They were so essential!
PSY101-KD1	Pysch INFO was easy to use
SOC101-KD1	The resources were helpful to complete and achieve the goals of one of the homework.
