- **Open Educational Resources:**

- Could the current PCO be used to collect cost of required materials?
- Do UAS faculty support the less than \$40.00 threshold for low cost?

- A cost range may be displayed.
- Do UAS faculty support setting an implementation goal of Fall 2020 for this process?

- **CCC: May send information to Megan Buzby**

- Is course sharing as proposed going to work for your program?
- Will you use the shared course times?
- Do faculty foresee themselves sharing courses?
- Are faculty interested in more course sharing?
